PARTICIPANT STATEMENT

Members of the Postal Regulatory Commission:

I wanted to add these most relevant photos to my Participant Statement, but due to problems uploading to the PRC website I was unable to. Please accept them as a supplemental to the Statement as I believe this shows in clearer view the amount of snow we are dealing with during the winter. These photos were taken on February 26, 2011 by Dolly Chapman. The snowfall of March 2011 was even worse.

According to the Truckee based Sierra Sun Newspaper of March 21, 2011, "The robust snowfall has garnered the region acclaim as one of the **nation's toughest weather regions, according to the Weather Channel.**" The town of Sierraville is just 30 miles north of Truckee.

Thank you,
Debbie McMaster
